The Hawaii Lumber Products Association invites mainland and Hawaii-based companies to join, with the mission of promoting lumber products as a renewable resource and sound building material.

"The association's goal is to educate the public on

lumber as the preferred building material based on over a 100-year track record of wood and its increasing long-term performance in Hawaii's climate conditions and construction industry," said president Hap Person.

Wood is a "green" product that creates architectural flexibility and meets the highest structural engineering standards, according to the association. Founding members include the Honolulu Wood Treating Co. Inc., HPM, Hardware Hawaii Ace, Honsador Lumber, Hale Kauai Ltd., Miyake Concrete Accessories Inc, Plywood Hawaii and Rinell Wood Systems.

Lumber product manufacturers, suppliers, retailers, wholesalers and affiliated organizations are all invited to join. For more information, contact Hap Person at 682-5704.
