

# WOOD...Growing today. BUILDING our Tomorrow.

**WOOD** continues to grow, as the leading building material for Home construction in Hawaii. The rising demand for Wood Supports Hawaii's labor and business from Shipping, Trucking, Warehousing, Wood Treating, Builders, Tradesman, Business Services and more.

## The Facts:

- *Hawaii Construction firms are ramping up their hiring. Jobs in the sector were up nearly 7% in 2013, a net gain of more than 2,000 jobs over 2012.\**
- *Hawaii will see stronger job growth in 2014 in construction and continue to ramp up over the next several years.\**
- *Permitting for new residential structures, which include single family homes, surged by more than 40% in 2013 on Oahu.\**
