

# WOOD...Growing today. BUILDING our Tomorrow.

WOOD continues to grow, as the leading building material for Home construction in Hawaii.

The demand for Wood supports Hawaii's Industry and Trades from Manufacture, Transportation, Distribution and Dealer Supply to Builders and Tradesmen.

## The Facts:

- Over 50,000 semi-trailer loads of wood products are shipped, serviced and purchased throughout Hawaii each year.
- More than 12,000 homes built in Hawaii over the past 5 years relied on wood products with an average of 10,000 board feet used per home\*
- Statewide value of building permits issued in Hawaii in the past year for New Residential Construction was \$837,170,000.00\*\*
